What Is MetaRacers?

Metaverse Blockchain Game

MetaRacers is a metaverse universe blockchain-based arcade-style racing game in which you race against other players from all over the world to earn money.

Our Vision

Besides the Play To Earn element, we also offer you a pleasant gaming experience with high-end visuals, creative gameplay, and a competitive PvP system.

Players will enjoy exciting gaming experiences, communicating with other players, and earning money by competing in races or exchanging on the marketplace.

The prize will be changed based on the number of cars opened from the box. This will limit inflation from the game fund. Increase the value of MRS token.

Game Mode

Participation fee: 0.5 - 10 eMRS

The cost to participate the PvP tournament will be changed based on the price of the MRS token. The lowest cost will be 0.5 eMRS, the highest is 10 eMRS.
The winner's prize in PvP is 0.3 - 1.2% on the value of the car player own.

PvP

Game Mode

Every day energy will be filled. Each turn participating in PvE, PvP, the player will lose 1 energy point. This will reduce the number of inflated tokens in the prize pool. On average, a player gets 20 energy points per day. The maximum energy can be change by the number of cars generated from the box. There will be some events that don't use this energy point in the future
